Attachments: RE: Tierra del Sol

Hi Rob,

I tried sending the correct version yesterday afternoon, but it looks like the e-mail didn't go through (we sometimes have difficulty with connectivity with our large file transfer FTP e-mails). I will continue trying to get it to go through this morning, but in the meantime the correct versions of the TDS report have been replaced on the FTP site. They are dated November 2013. We will be sending the correct version of the Rugged report today as well.

Attached is our e-mail communication with Jim yesterday regarding our version mishap.

Thanks,
Megan

Trey and Megan,

We received a final groundwater report for TDS from Trey yesterday afternoon (TDS GWReport_08NOV2013.docx) that is dated November 2013. However, we had already downloaded a groundwater report for TDS from your ftp server (Appendix_3.1.5-5_Groundwater Resources Investigation Report_TDS.docx) that is dated December 2013. Please let us know which report we should be reviewing.

Thanks,

Robert Hingtgen, Planner III

Hi Jim,

No, sorry, it is not. We had a miscommunication internally regarding versions. We are creating a PDF of the final TDS groundwater investigation now and will re-send that shortly.

Thanks,
Megan

Trey,

We have a full PDF of the Tierra Del Sol groundwater investigation that we received as part of the final submittal. The PDF we have, is it not final?

Thanks,

Jim,

Attached is Final word copy of Tierra del Sol Groundwater Resources Investigation. I will send over various documents for your review as they are being submitted to our Publications Department.

Cheers,
Trey
